

CLTS Knowledge Hub

At the 41st WEDC
International
Conference, 9-13
July 2018,
Nakuru, Kenya

The CLTS Knowledge Hub at IDS will be hosting/supporting the following events at the WEDC conference:

Sunday 8th July: CLTS Sharing and Learning Workshop, 9.30-17.00, Sarova Woodland Hotel, Nakuru, Kenya

The CLTS Knowledge Hub (IDS, UK) invites those who will be attending the WEDC conference and anyone interested in CLTS to join us for this opportunity to exchange experiences, discuss ideas, challenges, innovations etc and to network. The workshop is free of charge and will include coffee breaks and lunch. Further details will be sent to registered participants nearer the time.

Please register by sending your name, organisation, job title and country to Stacey Townsend: S.Townsend@ids.ac.uk

Side session (afternoon):

Thursday 12th July, room TBC

Practical Rapid Action Learning for Rural Sanitation

This highly interactive session will review the innovations, methods and lessons learnt in rural sanitation approaches, and their relevance for other countries and contexts.

Espresso slots : Date and room TBC

- *Discussions from Regional Rural Sanitation Workshops*
- *The Other Side of Gender: Sanitation, Men and Boys*

Paper presentations:

Using immersive research to understand rural sanitation: lessons from the Swachh Bharat Mission in India (Robert Chambers)

Can direct benefit transfer strengthen the Swachh Bharat Mission? Learnings from three districts in Madhya Pradesh, India (Kanika Singh)

Towards behavioural maintenance: innovations in demand-side sanitation and hygiene intervention design and implementation (Kassahun Zewudie)

Capacity building workshop:

Friday 13 July, room TBC, 9:00-16:30

Adapting Community-Led Total Sanitation to Urban Environments

This course will take participants through the different stages and considerations needed when applying a community-led total sanitation approach in peri-urban and urban areas.

And find us daily at the CLTS stall in the exhibition area. Come to chat and pick up free CLTS publications.

CLTS Knowledge Hub

Strengthening and broadening
Community-led Total
Sanitation at scale

IDS has been working in support of CLTS for over a decade. Over this time CLTS has become an international movement and in 2009, the CLTS Knowledge Hub came into existence.

Vision

The overarching aim of the Hub is to contribute to the dignity, health and wellbeing of children, women and men in the developing world who currently suffer the consequences of inadequate or no sanitation and poor hygiene.

What we do

We support the scaling up of CLTS with quality and sustainability through:

- **Action learning and networking.**
- **Co-convening workshops for sharing and learning.**
- **The CLTS website and bi-monthly newsletter.**
- **Publications and dissemination, including *Frontiers of CLTS: Innovations and Insights*. This series offers practical guidance on new methods and approaches, and thinking on broader issues and emerging topics in CLTS.**

Mission

We are committed to supporting CLTS to go to scale sustainably and with quality, broadening its scope, accelerating its spread and adding to its momentum as a movement. We do this in collaboration with practitioners, policy-makers, researchers, and others in the development, sanitation and related communities, and in Governments, international agencies, civil society, research institutes and other organisations. We are dedicated to understanding the on-the-ground realities of CLTS and to learning about, sharing and promoting good practices, ideas and innovations. We provide spaces for reflection, continuous learning and knowledge exchange and seek to keep the CLTS community well connected and informed.
