

Snapshot of Survey Findings

Toilet Coverage

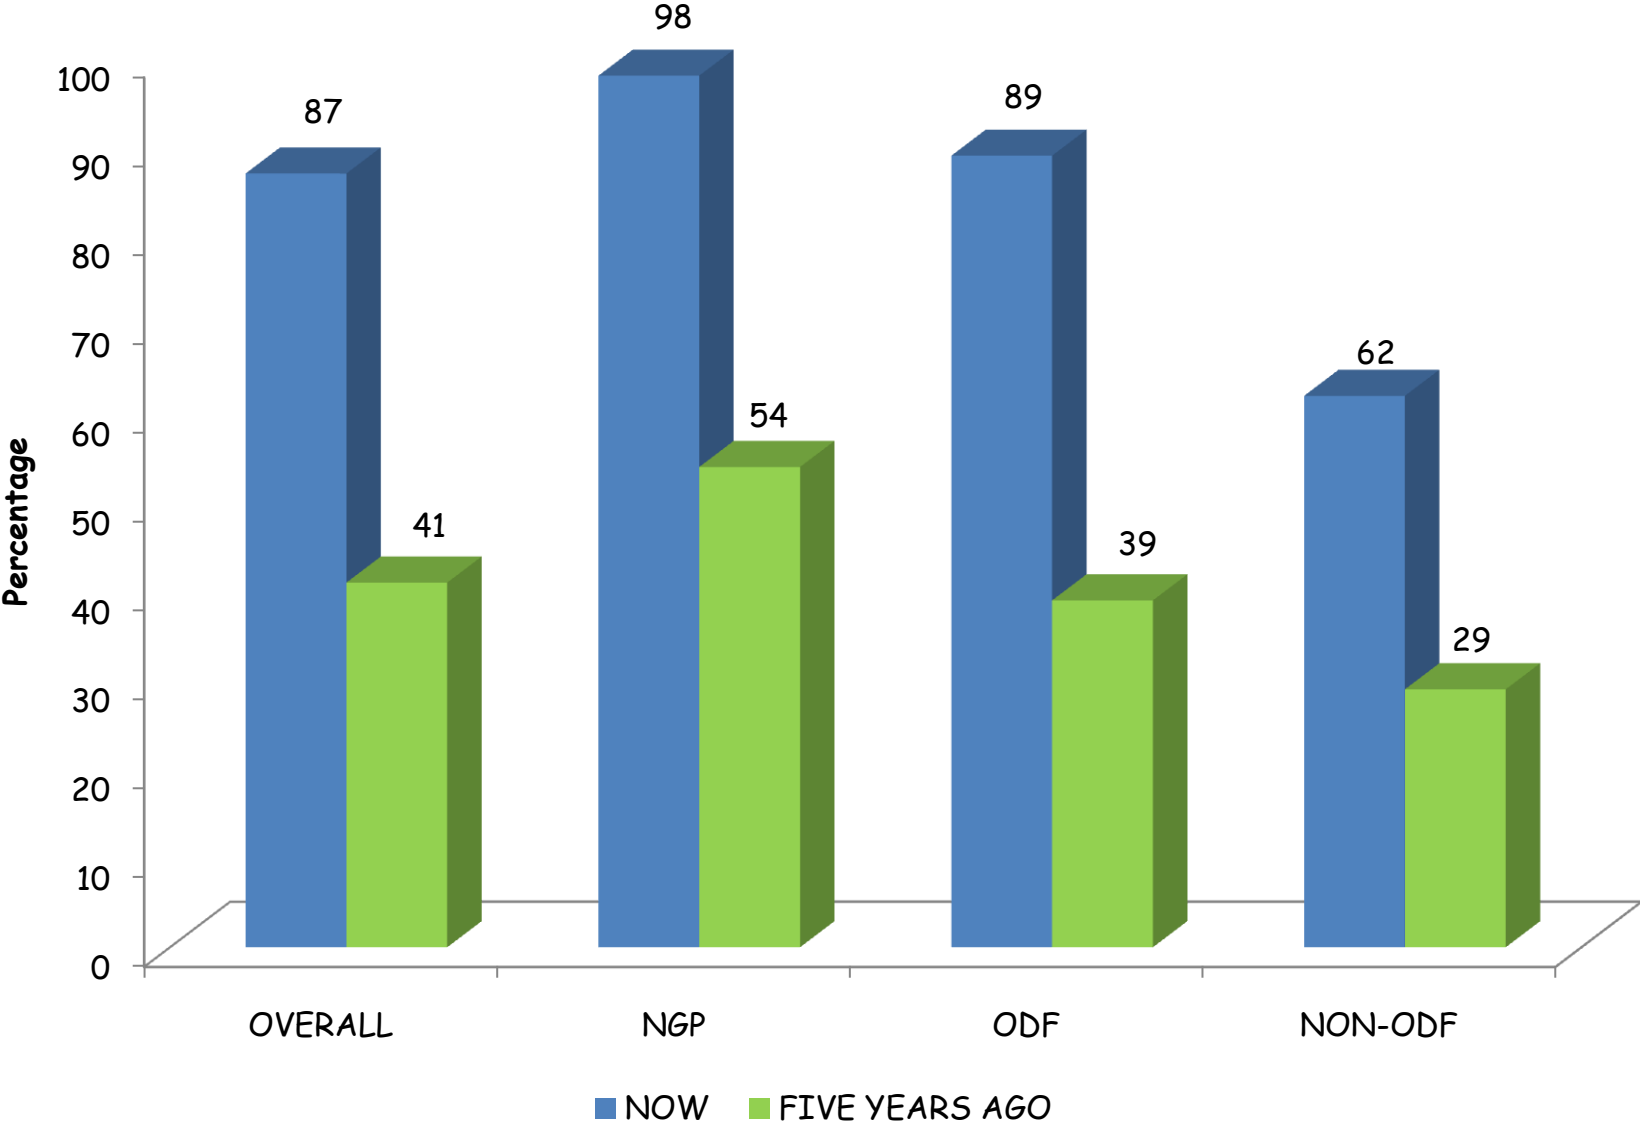

Toilet Coverage (%)

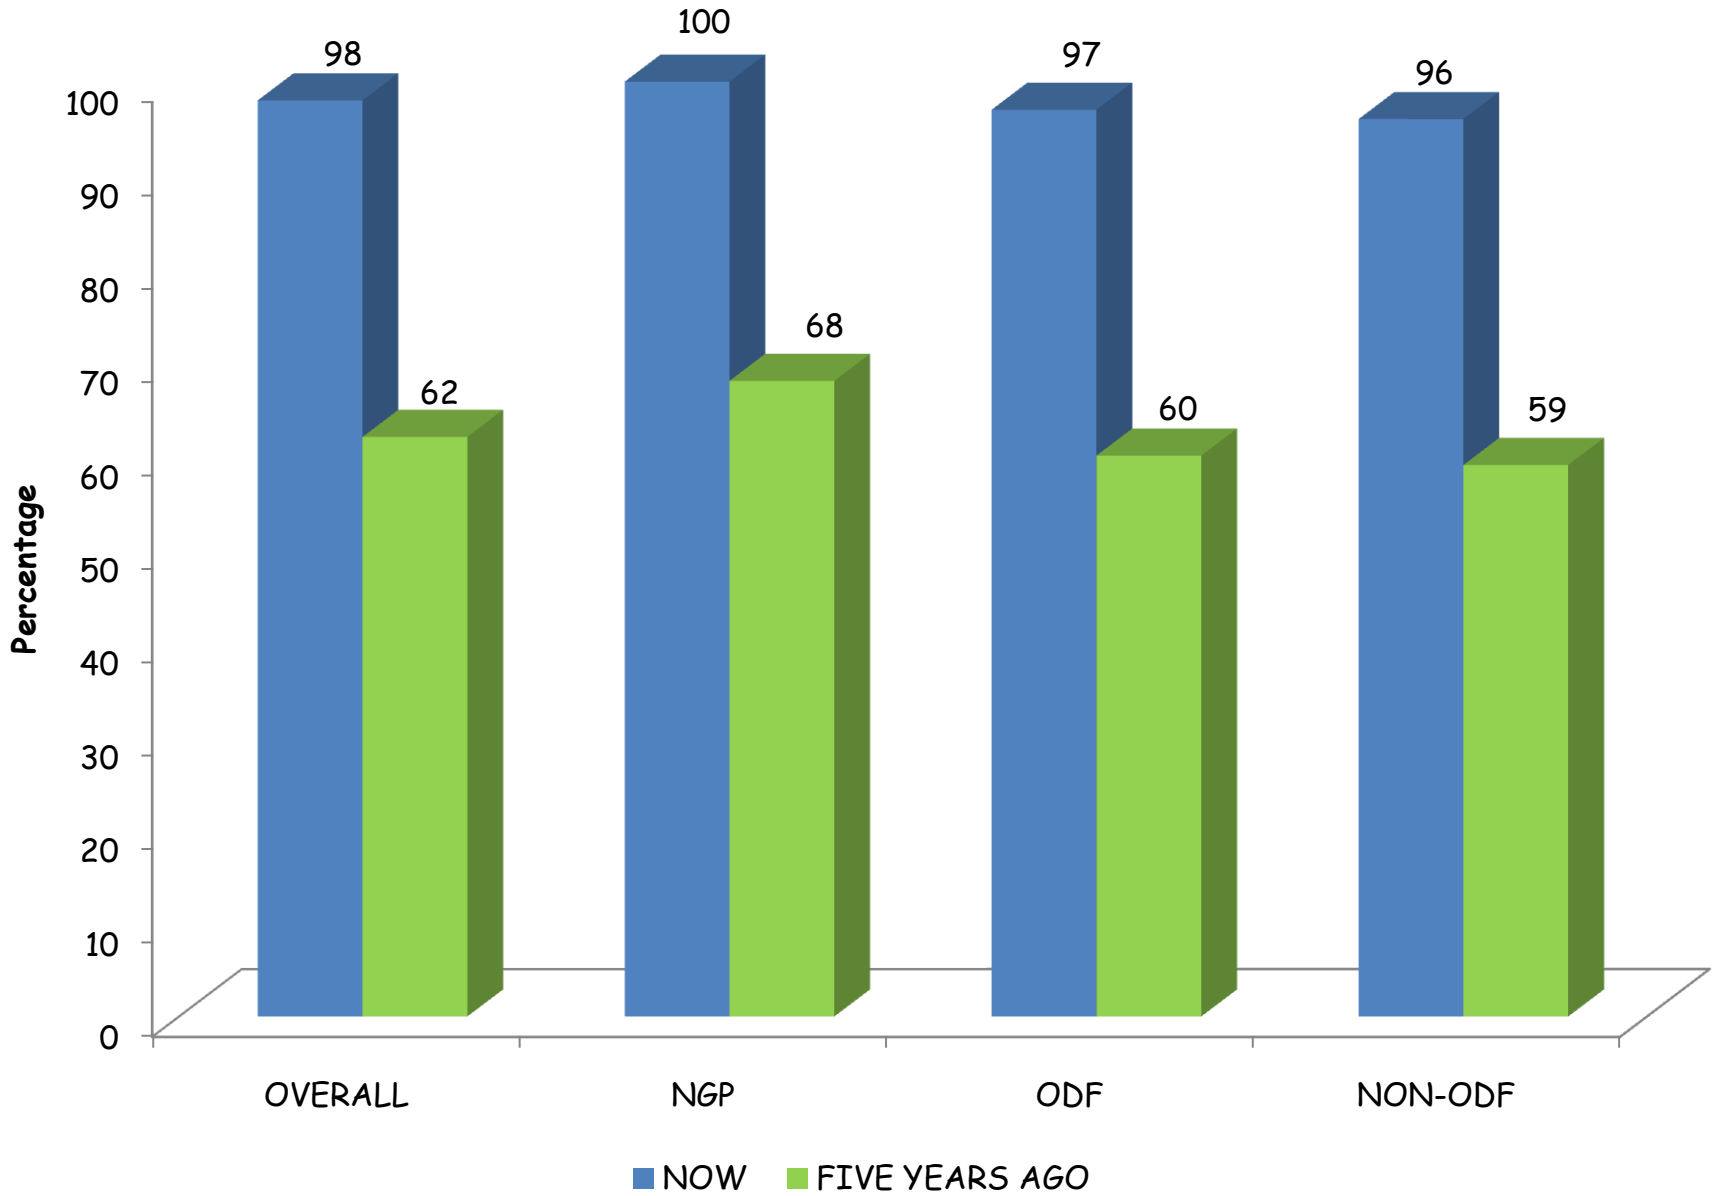

Toilet coverage (percentage increase in last five years)

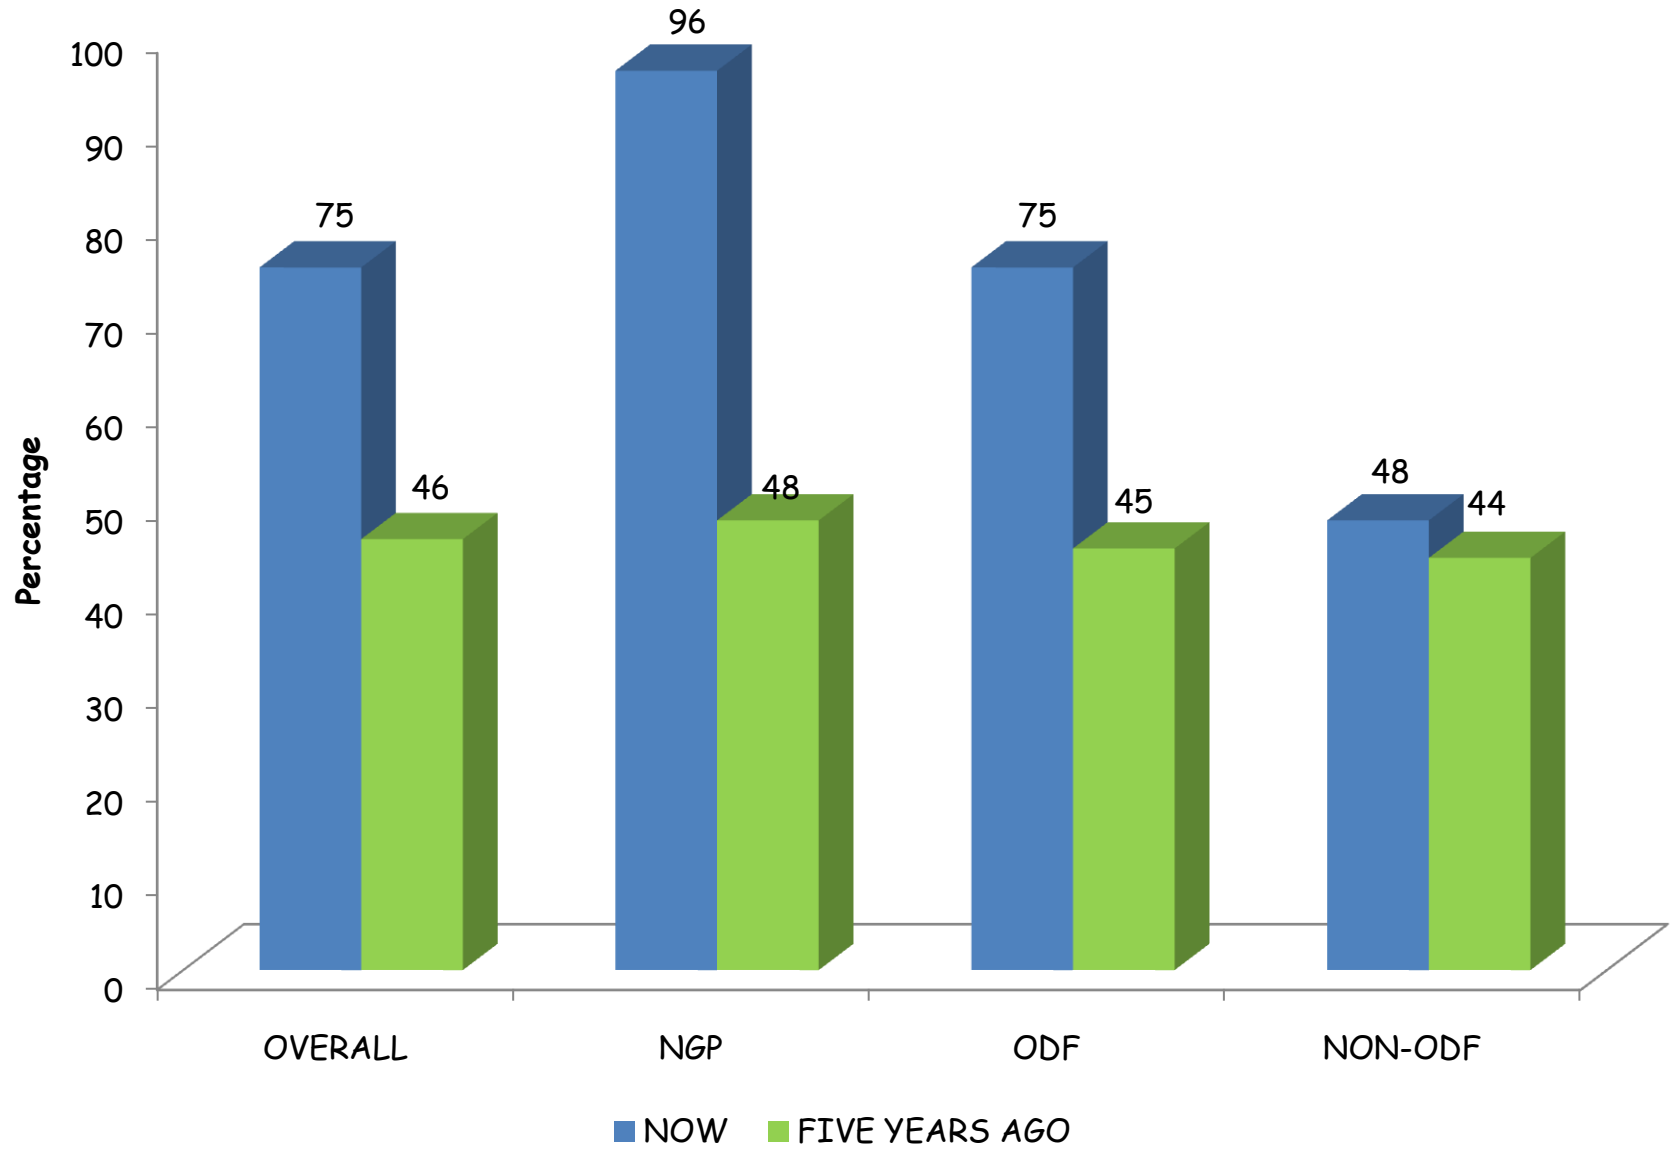

Households with Toilets

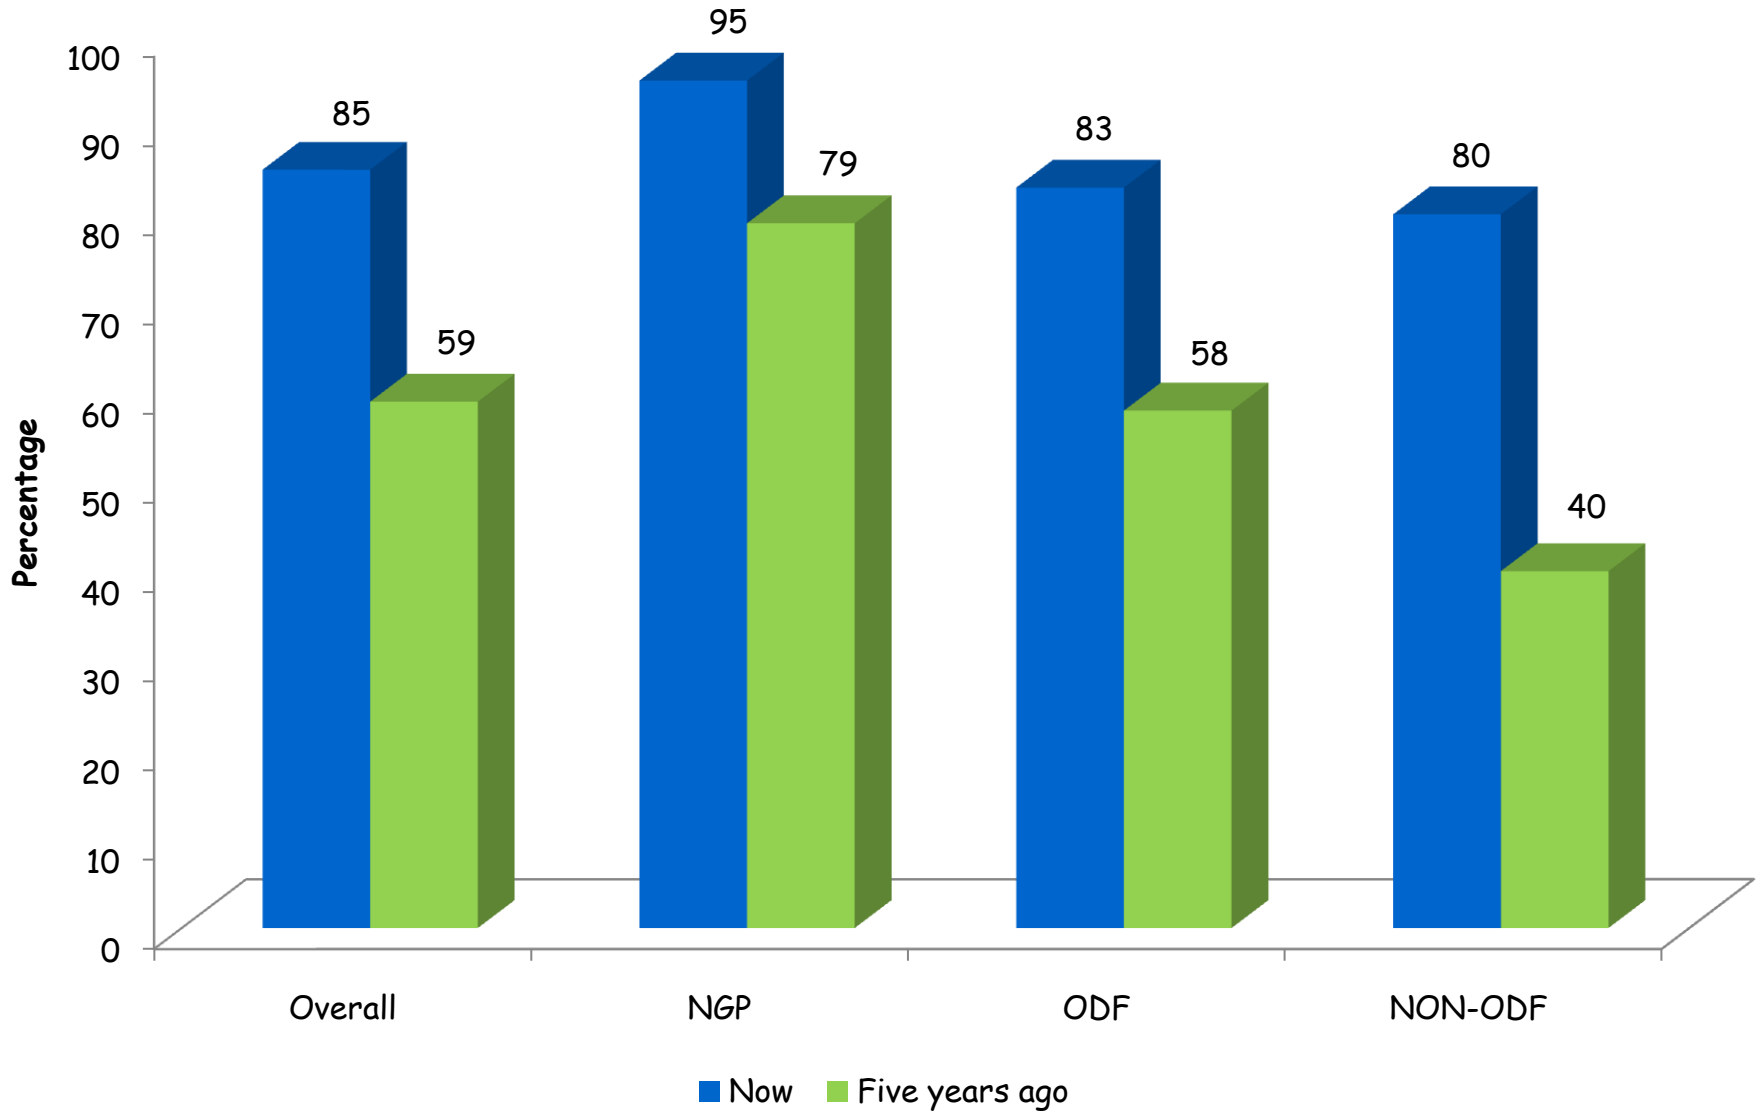

Schools with Toilets

Anganwadi with Toilets

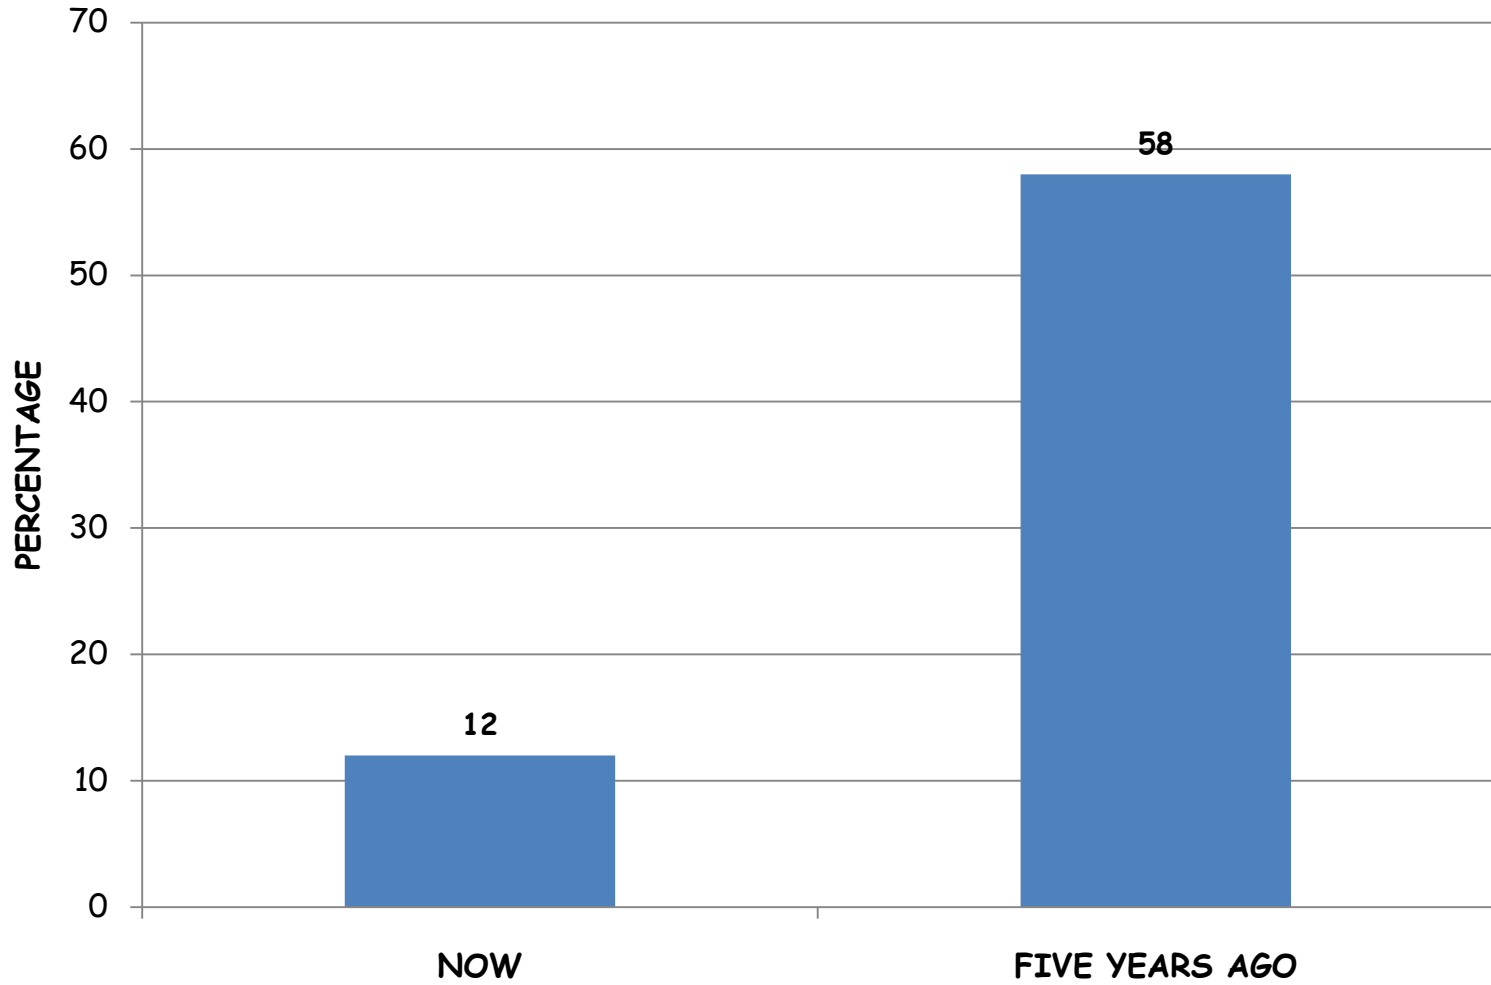

Toilets in Public Places

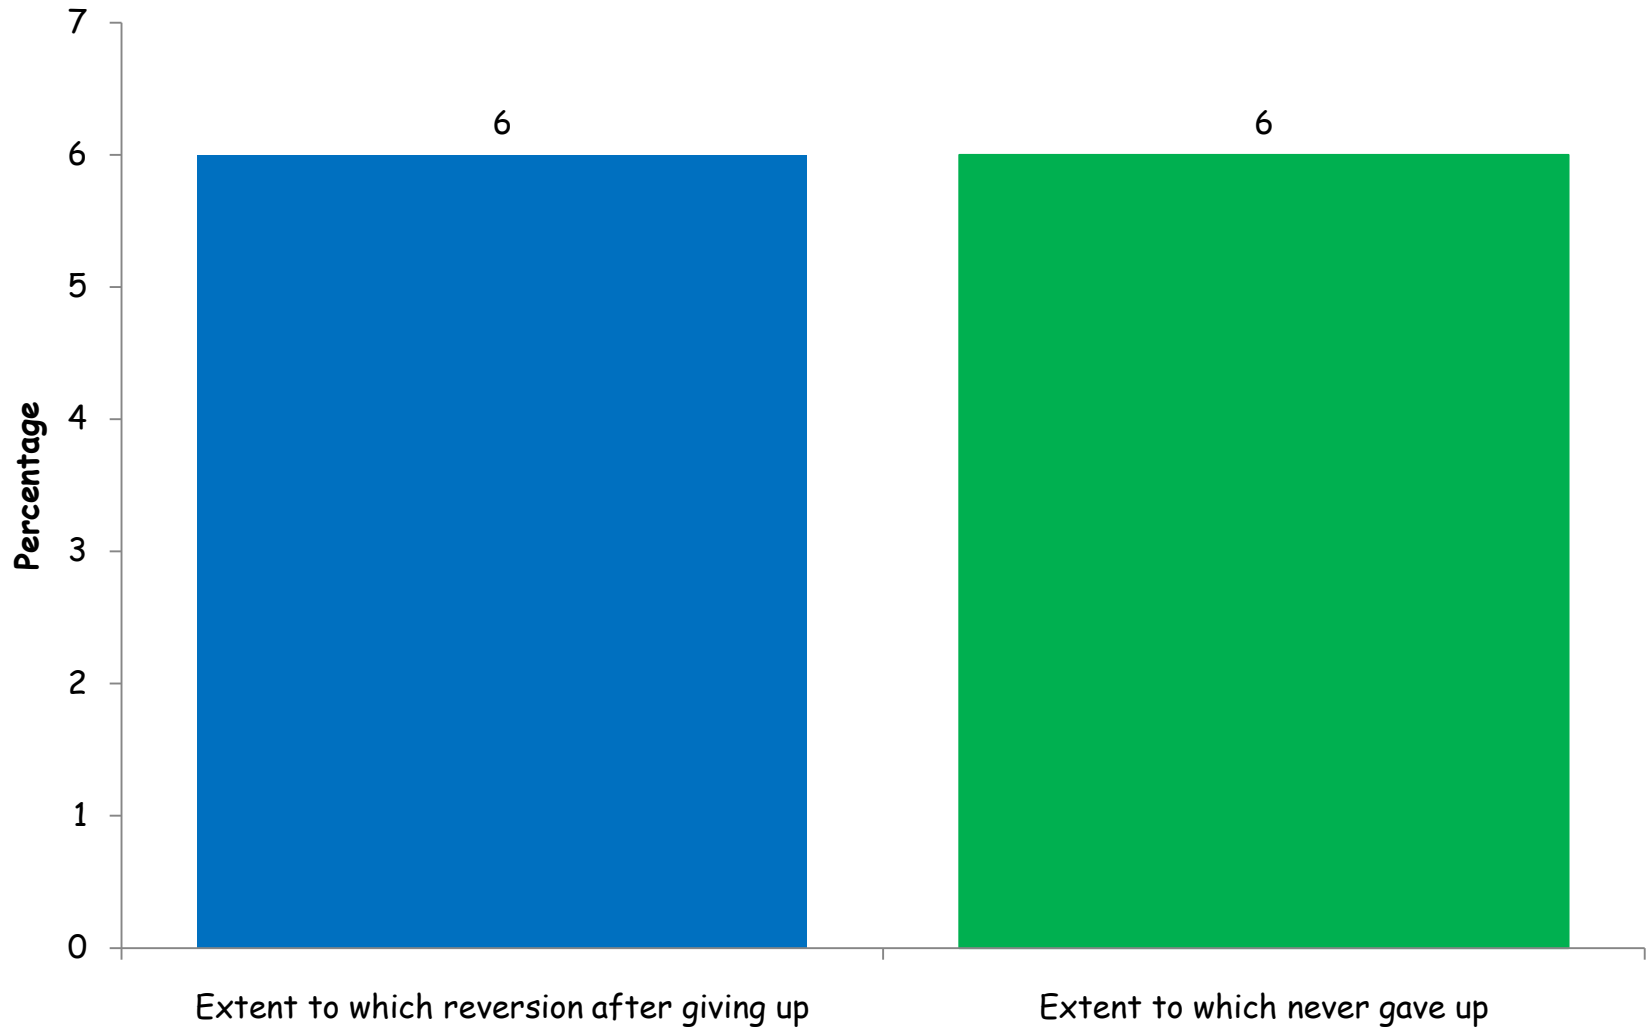

Extent and Sustainability of Behaviour Change

OPEN DEFECATION

Gauging Extent of Behaviour Change: Break Up of 12% Persons still practicing Open Defecation (OD)

Gauging extent of conceptual understanding of ODF

- ❑ Open defecation by migrant labour = 42%
- ❑ School Toilet not available to students = 7%
- ❑ Anganwadi Toilet not available to children = 32%
- ❑ No toilet facility in Public Spaces = 31%

INVESTIGATOR PERCEPTION OF PREVALENCE OF OPEN DEFECATION

	Human waste visible	Not visible but can be smelt	Not visible in immediate area but can be seen or smelt in nearby fields or water course	Not visible and no smell anywhere in village or surrounding
Non-ODF villages	6	6	44	44
ODF-villages	3	3	30	64
NGP villages	0	0	13	87
Overall	3	3	28	66

Solid and Liquid Waste Management

Solid waste (SWM) and Liquid waste management Practices

- Biodegradable waste not managed at all = 24%
- Non-biodegradable not managed at all = 25%
- Liquid waste not managed at all = 38%

INVESTIGATOR PERCEPTION OF SOLID WASTE MANAGEMENT

	Garbage heaps visible in and around village	No garbage heaps but large scale littering on hillsides/roadsides	No significant garbage heaps anywhere and limited littering	Lots of evidence of compost pits/garbage collection system and only limited littering surroundings
Non-ODF villages	0	50	50	0
ODF-villages	3	22	67	8
NGP villages	0	17	61	22
Overall	2	25	63	9

INVESTIGATOR PERCEPTION OF LIQUID WASTE MANAGEMENT

	No drainage system in village and evidence of stagnant pools near houses or in village surroundings/smell of waste water	No drainage system but no stagnant pools/smell	drainage system but not maintained	Well maintained drainage system
Non-ODF villages	0	50	44	6
ODF-villages	3	43	51	3
NGP villages	0	43	35	22
Overall	2	44	46	8

COMMUNITY PERCEPTION
OF CHANGE IN SANITATION
SITUATION

Community Perception of Change in Overall Sanitation Status over 5 year period

Community Perception of significant improvement in sanitation over last 5 years
