

CLTS Knowledge Hub

At the 40th WEDC
International
Conference,
23-28 July 2017,
Loughborough, UK

The CLTS Knowledge Hub at IDS will be hosting the following events at the WEDC conference:

Sunday 23rd July: CLTS Sharing and Learning Workshop, 9.30-17.00, Burleigh Court, Loughborough University

The CLTS Knowledge Hub (IDS, UK) invites those who will be attending the WEDC conference and anyone interested in CLTS to join us for this opportunity to exchange experiences, discuss ideas, challenges, innovations etc and to network. The workshop is free of charge and will include coffee breaks and lunch. Further details will be sent to registered participants nearer the time.

Please register by sending your name, organisation, job title and country to Stacey Townsend: S.Townsend@ids.ac.uk

Revisiting Subsidies: Supporting the poorest in CLTS

Evening side session: Monday 24th July, 17:30 - 19:00, room TBC

Recent studies have highlighted issues of sustainability and inclusion that raise questions about the strong position against subsidies associated with CLTS. This side event will share workshop discussions, highlighting innovations, challenges and opportunities of integrating support for the poorest with CLTS programming at scale from a recent workshop convened by the CLTS Knowledge Hub and UNICEF. It will be a highly interactive event, asking participants to share their own experiences, knowledge and views.

Triggering session in Center of Bamyan province of Afghanistan by MRRD CLTS team.

CLTS Knowledge Hub

Strengthening and broadening
Community-led Total
Sanitation at scale

IDS has been working in support of CLTS for over a decade. Over this time CLTS has become an international movement and in 2009, the CLTS Knowledge Hub came into existence.

Vision

The overarching aim of the Hub is to contribute to the dignity, health and wellbeing of children, women and men in the developing world who currently suffer the consequences of inadequate or no sanitation and poor hygiene.

What we do

We support the scaling up of CLTS with quality and sustainability through:

- **Action learning and networking.**
- **Co-convening workshops for sharing and learning.**
- **The CLTS website and bi-monthly newsletter.**
- **Publications and dissemination, including *Frontiers of CLTS: Innovations and Insights*. This series offers practical guidance on new methods and approaches, and thinking on broader issues and emerging topics in CLTS.**

Mission

We are committed to supporting CLTS to go to scale sustainably and with quality, broadening its scope, accelerating its spread and adding to its momentum as a movement. We do this in collaboration with practitioners, policy-makers, researchers, and others in the development, sanitation and related communities, and in Governments, international agencies, civil society, research institutes and other organisations. We are dedicated to understanding the on-the-ground realities of CLTS and to learning about, sharing and promoting good practices, ideas and innovations. We provide spaces for reflection, continuous learning and knowledge exchange and seek to keep the CLTS community well connected and informed.
